

Color Balance

New, visually intense Color Balance from Mohawk Group marries texture and color in a tufted plank rich with inspiration for modern installations. Global art, fashion and architecture have helped spark fresh interest in color blocking, multi-color hues and texture interplay. Color Balance's broad palette of 24 colorways gives designers endless options through color choice and texture orientation for accents or wall-to-wall installations. Use warm and cool neutrals balanced against vibrant accents for branding, way finding or indicating gradients. Color Balance is art underfoot.

Beyond Carbon Neutral

2022

All products carbon neutral

PLUS an additional 5% for a net-positive impact on the climate

2040

Net zero carbon emissions

We've signed The Climate Pledge to be net zero in emissions by 2040 and have already started major changes to reduce our carbon footprint.

Neutral is not enough.

With our holistic improvement of the life cycle of our flooring products — from full product transparency, to reduced water usage in manufacturing, to carbon neutrality and beyond — better is just the beginning.

THE
CLIMATE
PLEDGE

Better for our world means doing more to stop and reverse climate change.

Duracolor® Tricor FIBER

Building upon the trusted Duracolor promise with over 100 million yards installed since 1992, new Duracolor Tricor delivers unsurpassed stain resistance, colorfastness, durability, color clarity and enhanced soil performance. Carpet made with Duracolor® Tricor is recyclable, easy to maintain and features inherent stain resistance with water-only stain removal.

FOREVER STAIN FREE

- The high-performance shape of the modified delta improves resilience and reduces surface wear of carpet
- Duracolor® Tricor Fiber has a negative charge that repels 99% of negatively charged, common staining substances
- Single Triangular Hole provides the best soil hiding capability and controlled light diffusion for clearer, brighter colors
- 96% of all common stains removed with just water
- Passes AATCC Test Method 175 combined with pre-abrasion meeting GSA requirements for stain resistance

FOREVER BEAUTIFUL

- Unsurpassed colorfastness to light and atmospheric contaminants so colors won't fade
- Unmatched design flexibility without compromising color retention or stain resistance

FOREVER SUSTAINABLE

- Made with a minimum of 70% recycled content**
- No Chemicals required: 96% of all common stains clean with just water
- Declare Red List Free: Duracolor fiber is Declare Red List Free in accordance with the Living Building Challenge
- Lasts Longer: Product life is extended, reducing the impact to your bottom line and to the environment
- Recyclable through Mohawk's ReCover Program

The shape and placement of the fiber's central hollow core delivers optimal light refraction while preserving color clarity.

Installation Instructions:

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. Failure to use Mohawk Group adhesives or to follow Mohawk's floor preparation procedures will void all lifetime adhesive warranties. Please contact your local Sales Representative for installation guidelines.

These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.

Duracolor by Mohawk Stain Resistant System passes AATCC Test Method 175 combined with pre-abrasion meeting GSA requirements for stain resistance. Under GSA requirements stain resistant carpets must score no less than 8.0 (10.0 is best) on the AATCC Red 40 Stain Scale. Carpet samples must first be exposed to 100 revolutions of the

Taber abrader (1,000-gram weight per H-18 wheel) and then the abraded area must be stain tested using AATCC tested using AATCC test method 175.

Mohawk Group is providing this architect folder for the purpose of promoting our commercial business. This folder and its samples shall remain the property of Mohawk Group. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations.
